

Q. WHAT DOES ONE TINY PART OF A PICTURE TELL YOU?

A. Very little.

It's the same when checking Motor Vehicle Records. You only get that day's piece of the picture—unless you have License Monitor.

Why put your business at risk? Be sure your drivers are in compliance and properly licensed at *all times*. DriverManager 3.1c is your solution.

It is easy to use and completely flexible to meet the needs of small to large fleets.

"Even if you have only one driver, you should have License Monitor. It protects your company and our insurance company likes it."

- Gary Rubin, H. Schrier & Co., Inc., Brooklyn, NY

"To help meet insurance company expectations, improving driver performance became an important objective for our company. To assist us in reaching this goal, we subscribed to License Monitor. It worked!"

- Russell T. Rose, Quogue Sinclair Fuel, Hampton Bays, NY
